DEVELOPMENT EXPERIENCE

FULL STACK WEB DEVELOPER
Hardin Design & Development | Madison, WI | 2022- Present

- Designed and developed all aspects of major re-launch of rental insurance compliance application using PHP, Laravel, React and MYSQL.
- Re-engineered data structures to a more modular, loosely-coupled design and migrated existing data.
- Converted front-end of admin dashboard from multi-page template-based architecture to SPA using React, HTML and CSS
- Managed and maintained API integration with multinational insurance carrier (QBE)
- Worked directly with clients to elicit requirements and manage project specifications.
- Contributed to decisions regarding UX-flow and UI design.
- Wrote documentation for many aspects of application.
- Participated in Agile activities including sprint planning and code review.

WEB DEVELOPMENT INTERN
SWTC Marketing Department | Fennimore, WI | 2018- 2019, 2020

- Designed, developed and maintained web pages that were consistent with the college's layout.
- Designed major overhaul of website that launched in August 2019 and implemented many of the front-end changes.
- Presented project proposals to the marketing department and college executive team for approval.
